# IZiel Healthcare:

## The Maiden company offering multiple solutions to Medical Device Design and Manufacturing Companies

Dr. Pallavi Banerjee • The CEO Magazine

Innovations in medical procedures have given rise to the development of medical devices and equipment that can make significant contributions in the improvement of healthcare facilities. Several Medical Device companies and Start-ups show zeal to design and manufacture these devices but their inability to access resources and lack of expertise in the area present a significant struggle that they must overcome. With a mission of helping such organizations, IZiel group, a team of highly qualified professionals providing multiple business solutions to various industries set up IZiel Healthcare in 2016. IZiel Healthcare is the first and the only company in India that caters to the needs of the medical device industry by providing diversified solutions in Design and Process Engineering that are US FDA compliant. Mr. Sarvesh Mutha, Director, IZiel Group assures, "We provide complete guarantee for all our work to be compliant towards getting US FDA Product Approval." Since its inception, the company has been assisting several companies dealing with ePharmacy, Diagnostics, Infertility and Implantable Medical devices. The company also works in association with its partner organization in the US to deliver diversified services to reputed

medical device companies across the globe.

IZiel Healthcare provides wide range of engineering services to assist medical devices companies. Some of the key areas targeted by IZiel Healthcare are

- **Product Design & Development**
- **Process Validation**
- **Market Analysis along with Voice of Customer**
- **Risk Management**
- **Quality Systems & CAPA**
- **US FDA Regulatory Approvals**
- **Contract Manufacturing**
- **Consulting & Training**

In a short span of time, IZiel Healthcare's commitment to work with its customers efficiently, with uniqueness, and in transforming their dreams into reality, has appealed to reputed and large Medical Device companies and MedTech startups. The team at IZiel Healthcare aids its clients in various stages of product cycle, to improve the quality of the product and to get faster FDA approval for their product; and recommends cost and time saving solutions that accelerate the process of product launch without compromising on quality and safety. To ensure guaranteed success to its clients, IZiel

team employs statistical data driven methods that promises enhanced productivity with minimal wastage and low risk. "Our Mechanical Expertise along with the Medical Knowledge enables us to validate processes efficiently, understand compliance system gaps between current and FDA expected requirements and reverse shortcomings that may exist in your current development and manufacturing processes.", says Mr. Ankur Naik, Managing Director, IZiel Healthcare. The IZiel team believes in its clients' ideas, supports them and works together with them to achieve success.

IZiel Healthcare team involves an association of highly qualified professionals who are matchless in terms of skills and prowess best suited for the job. For smooth handling of services, the company ensures that all engineers are well equipped to work on diverse projects. The company also has a broad network of consultants and partners who specialize in the concerned field and can be approached for acquiring the best solution.

The praiseworthy performance of the company within a year has motivated it to make efforts towards achieving more success. The company is actively involved in the process of doing all the groundwork to launch its own products by 2018 with a dream of instituting revolutionary changes in healthcare industry. The company has also entered into tie ups with ISO certified and FDA registered reputed contract manufacturing sites in the US, Costa Rica and India to provide best in-class production capability at appropriate prices. The IZiel team feels constantly motivated to improve its support services, and believes it as a social responsibility to extend its hands of support to more and more organizations for their smooth functioning.

### THE SPIRITS BEHIND THE SUCCESS

IZiel Healthcare owes its success to a highly qualified team of professionals, who, using the best of their skills and expertise have been helping medical device companies achieve their goals and launch their products globally.

Sarvesh Mutha, Director, IZiel Group, has a rich and varied entrepreneurial experience in the engineering & realty industry for more than a decade and a half. With a Master's degree in Engineering Management from USA, he has been an expert in addressing issues of international clients in the areas of Finance, Strategy Development and Marketing.

Ankur Naik, Managing Director, IZiel Healthcare, holds a Master's degree in Mechanical Engineering and Business Administration (MBA) from the USA and is a Design for Six Sigma - Master Black Belt from Medtronic PLC. Ankur Naik is an accomplished healthcare professional with an expertise in problem solving skills, Project Management, Market Development, Upstream Marketing, Mechanical Engineering Design, Manufacturing and Testing and Design Remediation. He is also a PMP certified Project Manager from USA.

Dr. Narayan Pisharoty, Chief Technology Officer, is a veteran with an experience of more than four decades in Electronic Equipment and Systems with core expertise in product development and business development. He holds a PhD from Carnegie Mellon University, USA and a MTech and BTech from IIT Kanpur and IIT Bombay respectively. He has mentored several software companies in India facilitating them to form alliances with reputed organizations in US.
